EDU230 · REMOTE SCHOOLS

Does your community need *teachers?*

Do you live in a rural or remote area? Are the schools in your area short of teachers? Qualified, verified teachers can teach your children over video, with a large screen and solar power in the classroom. Community leaders, head teachers and parents: enrol your school together. It is free.

edu230.com/enrol

Scan with your phone camera, or type the link.

How your community can enrol a school

1. Open the link on your phone.
2. Answer five short steps about your school: you, the school, where it is, what it has and needs, and who to call.
3. Our team calls your contact person.

Tell us what you already have

Does your school or community already have a TV or screen, solar panel, inverter, tablets, internet, books or a usable classroom? Tell us. It means we do not start from zero. Schools can ask for help with: TV or large screen · solar panel · inverter and battery · tablets for pupils · Starlink or other internet · books and writing materials · school uniforms · school repairs · teachers.

Nigeria first.
Other African countries coming soon.

Enrolling a school does not promise equipment or teachers. We will tell you honestly what we can do.
